# SCHOOL REPORT.

---

*To the Inhabitants of the School District of Haverhill:*

The School Board of the District of Haverhill present this, their second annual report of the condition of the public schools in said District, for the year ending March 6, 1888.

For the convenience of the Board, the District was divided the same as last year, viz :

Districts Nos. 1, 2, 3, 7, 12, 17, and 19 to Dr. S. P. Carbee.

Districts Nos. 4, 5, 9, 10, 11, and 15 to Caleb Wells.

Districts Nos. 6, 8, 14, 18, and 20 to D. K. Davis.

Some one of the School Board has visited each school at least twice during each term for the year, and has endeavored to give such suggestions to the teachers and pupils, as seemed to them necessary.

While there has in some instances been more interest taken by the parents, they have as a whole evidenced but little concern for the welfare of their children while under the immediate care of the teachers. If the parents desire more successful schools, they should encourage their children to improve the opportunities afforded them, and by their presence in school show that they take more than a passing interest in the development of the children who will soon be occupying the prominent places in our community, as well as in other parts of our common country.

It is our unpleasant duty to call the attention of the

teachers to the condition of the school registers as they have usually been returned by them. Not more than one in four of those returned for the past year being found correct. There is no excuse for this, as the instructions printed in every register is sufficient if given proper attention. The general condition of the schools in this District is as good as will usually be found in any sparsely settled community, and the advancement made in the studies pursued has been gratifying to us.

The whole number of scholars who have received instruction in the public schools in town, outside of Woodsville and Haverhill is 289. The total amount expended for the year, outside of Woodsville and Haverhill, is \$2208.43, giving to each pupil \$7.64. There has been paid out for tuition to the town of Bath \$14. 30. There has been received from the town of Benton \$20, making the receipts in excess of the expenditures for scholars outside of town, \$5.70.

There is now in the hands of the Treasurer,

School money,	\$460.42
Money for repairs,	49.08
Money for sale of old school houses,	249.50
Total,	<hr/> \$759.00

### *DISTRICTS NOS. 1 AND 17.*

These schools comprise the Primary and Intermediate departments of Haverhill Academy, and have been under the care of Miss Mary E. Burbeck and Miss Jennie P. Bean respectively.

Both teachers have been faithful in the discharge of their duties, and there has been marked improvement in both schools and we have been much pleased with the

order maintained in both departments. The improvement in regard to discipline the past year has been very gratifying to the School Board.

### *DISTRICT NO. 2.*

The spring term of ten weeks was taught by Miss Lizzie A. Page with her usual success. The fall term of eight weeks, and the winter term of twelve weeks were taught by Miss Louise Page. The scholars in this school made very satisfactory improvement in their studies but there seemed to be quite a lack in the discipline. With considerable attention paid to this matter both of these young ladies would make very successful teachers.

### *DISTRICT NO. 3.*

This school has been taught by Miss Ida M. Buck for the entire year of twenty-eight weeks and two days, and the improvement in the several branches taught has been more marked than in any other school in the western part of the town district. The teacher and scholars have vied with each other to make the best of the opportunities they have enjoyed.

### *DISTRICT NO. 4.*

This school was commenced by Miss Ada Eastman of Newbury but owing to some dissatisfaction the school was closed at the end of four weeks and Miss Anna King finished the school of nine weeks with her usual good success. The fall and winter terms were taught by Miss Fannie Buzzell with good results and marked progress. Miss Buzzell graduates this spring from the

Haverhill Academy school. She is destined to make a successful teacher.

### *DISTRICT NO. 5.*

This school was taught the entire year of thirty weeks by Miss Lottie E. Gannett with good results. In Miss Gannett is combined the many qualities that make a successful teacher. She possesses the firmness united with kindness that is so requisite in the management of the many different dispositions found in the school room, and it is safe to say that good progress was made by the pupils under her charge, especially in the much neglected studies of reading and writing. In this school the writing books were kept the nicest and best of any found in the entire district, and scholars showed great improvement in writing. This is her twenty-third term of teaching.

### *DISTRICT NO. 6.*

This school was taught the entire year of thirty-two weeks by Miss E. May Eaton, and was her second year in this school. We were much pleased with the improvement made, and found many of the higher branches taught. Some twenty-five parents and citizens were present and took part in the examination. The interest manifested by the citizens of this district is commendable, and we recommend that the parents throughout the town profit by their example. Of the twenty-three scholars attending, fifteen names appear on the Roll of Honor. This school includes No. 20 in Haverhill, and No. 3 in Benton.

*DISTRICT NO. 7.*

There are no scholars in this district, consequently there has been no school during the entire year.

*DISTRICT NO. 8.*

The spring term of ten weeks was taught by Miss Ada I. Adams. This was Miss Adams first experience in teaching. She secured good order, which is the first principle of a good school. There was marked improvement in all the studies pursued.

The fall term of eight weeks was taught by Miss Flora A. Temple with her usual good success, it being her third term in this school. The advancement was noticeable in all the studies. Penmanship received attention and the improvement was quite marked. Miss Temple has the faculty of securing the good will of her pupils, and is a successful teacher.

The winter term of twelve weeks was taught by Miss Jennie G. Morrison. Miss Morrison maintained good order in and about her school which caused some disaffection in the district. This school has been more or less broken by the sickness of some of the scholars during the whole term, but at the examination showed that excellent work had been done.

*DISTRICT NO. 9.*

In this district there has been no school, the scholars being accommodated in Nos. 10 and 15.

*DISTRICT NO. 10.*

This school was taught by Miss May F. Morrison through the entire year with very good results, consid-

ering that two terms of her school was broken up very much with sickness. She is a teacher of long experience and has good faculty of getting the good will of her pupils. Parents do not evince the interest which they ought to feel in the well being of our schools. Little do we appreciate the influence on both scholar and teacher of an occasional visit.

#### *DISTRICT NO. 11.*

In this district there has been no school the scholars being accommodated in No. 5.

#### *DISTRICT NO. 12.*

The spring term of ten weeks was taught by Miss May M. Weeks and she fully sustained her reputation as a faithful and conscientious teacher. The fall term of eight weeks was taught by Miss Emma C. Weeks with quite satisfactory results. This school is small but the pupils can hardly be accommodated in District No. 3 unless some change shall be made in the school house in the last named district.

#### *DISTRICT NO. 14.*

The spring term of ten weeks was taught by Miss Mable Hackett, and we were much pleased with the order and the improvement made which showed that the teacher had been faithful in the discharge of her duties.

The fall term of ten weeks was taught by Miss Lizzie A. Page, a teacher of much experience. Miss Page has the faculty of securing the good will of her pupils and we were much pleased with the interest manifested and improvement made.

The winter term of thirteen weeks was taught by Miss Cora S. Jeffers. The scholars seemed to take a lively interest in their studies and the improvement was quite satisfactory. Rev. W. A. Loyne has taken great interest in our schools making some thirty visits during the past year.

### *DISTRICT NO. 15.*

This school was taught by Miss Ona E. Lane through the entire year of thirty-one weeks with very good results. The energy and industry of the teacher made the pupils feel the importance of their being more active than they otherwise would. Good progress was made in all of the branches of studies. Miss Lane was perfectly at home with her pupils, and the school was orderly, and we think very profitable. We wish that parents would take a greater interest in our schools, and let their presence be seen in the school room more frequently.

### *DISTRICT NO. 18.*

This school has had only two terms. The spring term of ten weeks was taught by Miss Louise Page with her usual good success. The improvement was all that could be expected. This is the smallest school in the eastern division, and should be closed or a new house erected, the old one being unfit for school purposes.

The fall term of twelve weeks was taught by Miss Jennie G. Morrison. The teacher labored hard with her pupils, and her efforts were crowned with success. The parents take a lively interest in their school, and working with the teacher would secure success in any school. Seven out of eleven were on the Roll of Honor.

*DISTRICT NO. 19.*

Only one term of school has been taught in this district during the year, Miss Nellie A. Bard teaching the spring term of ten weeks. This teacher was faithful in her efforts to properly instruct her pupils, but the discipline of the school was sadly neglected. With more experience and closer attention to order, we think she may make a successful teacher. The scholars in this district have been accommodated in District No. 3 during the fall and winter terms.

Respectfully submitted,

CALEB WELLS, } *School Board*  
 S. P. CARBEE, } *of*  
 D. K. DAVIS, } *Haverhill.*

*To the Town School Board:*

The School Board of the Union High School District of Woodsville would respectfully submit the following abstract of their report, which taken in conjunction with the report of the treasurer will place you in possession of any data you may wish or require:
